## Concerning HB 642 Rename the Railroad Commission

Bill	Legislative Session	Author(s)
HB 642	85(R)	Phillips

---

The Collin County Libertarian Party, pleased that the 2017 Legislative Session is considering several measures to improve governance in Texas, ask that you consider:

### Whereas,

---

the Texas Railroad Commission has not conducted actual railroad oversight in many years, but now actually regulates Texas’ oil and gas industry.

### Whereas,

---

it is confusing, inaccurate, and misleading to voters to continue calling it the “Railroad Commission.”

### Whereas,

---

government transparency would be greatly enhanced by correcting the name to a more accurate “Texas Energy Resources Commission.”

Therefore,

---

to benefit Liberty and Texas, the Collin County Libertarian Party respectfully asks all members of our Legislature to fully support HB 642 within this legislative session, including a “yea” vote.
